

# SIGHT UNIT SMALL ARMS TRILUX (SUSAT) (L12A1)

## Safety: The Trilux Source

The TRILUX lamp used in the SUSAT contains Tritium gas. In the event of breakage the following precautions are to be taken:

1. The escaping gas is not to be inhaled.
2. Cigarettes are to be extinguished immediately.
3. Broken parts are not to be handled with bare hands.
4. If a breakage occurs indoors, doors and windows are to be opened to allow the gas to clear, and any gas or flame heating system is to be turned off.
5. All breakages are to be reported to the Medical Officer and the unit armourer as soon as possible.

Characteristic	Data
Title	Sight Unit Small Arms Trilux (SUSAT) L12A1
NATO Stock Number (NSN)	1240-99-967-0947
Type	Optical with illuminated pointer
Magnification	x4
Range Settings	300 to 800 meters in 100 m intervals
Field of view	10 Degrees (177 mils)
